JAPAN DECLINES HAGUE TRIBUNAL IN HER DISPUTE

Manchurian Contentions With
China Not Submitted to
Arbitration.

Recourse to Diplomacy Not
Yet Exhausted.

QUESTIONS TO BE DISCUSSED

Tokio, March 31.—The Japanese government has asserted in the most positive terms that it is unable to accede to the suggestion of China that pending questions with regard to Manchuria be referred to the Hague for arbitration. It maintains that this suggestion shows a lack of courtesy and it attributes the Chinese change of attitude in this matter to "malign influences."

Answering a request for an expression of the views of the government concerning China's proposal that the Manchurian questions be referred to the Hague in connection with special dispatches sent that China has officially requested the United States to use its influence to persuade Japan to accept, the foreign office gave out the following carefully worded statement:

"Several questions between Japan and China of more or less importance with reference to Manchuria still remain unadjusted. Some are complicated, but all readily could be made to yield to the diplomatic process of give and take. Japan, fully appreciating advantages of removing all causes for misunderstandings from her relations with her neighbors, made proposals to China looking to the final settlement of outstanding differences. These proposals were framed in a spirit of consideration and conciliation, and were in no sense an ultimatum representing the irreducible minimum. Japan expected that the terms offered would serve as a basis of negotiations or as points of departure for reciprocal concessions and accommodations. China at first apparently accepted Japan's friendly overtures in the spirit in which they were tendered, even went so far as to express approval of some of the projected solutions. But malign influences ultimately were permitted to prevail, and without discussing the questions or making any counter proposals, China categorically rejected Japan's offer and suggested recourse to the permanent court of arbitration at The Hague.

China's Course Unusual.
"In adopting this extraordinary course China is guilty not only of slight courtesy to Japan, but she has disregarded one of the expressed provisions of The Hague convention and has completely reversed the usual course of procedure. Article 41 of The Hague convention declares that the court is maintained for the object of facilitating recourse to arbitration of international difference impossible to settle by diplomacy; thus unsuccessful diplomatic effort is made an essential prerequisite to arbitration. In the present case the resources of diplomacy have not only not been exhausted, but they have not yet even been appealed to. The questions in dispute have not been made the subject of full detailed discussion and negotiation between the two governments and no attempt has been made to compose the differences or ascertain how far they are irreconcilable.

"Even if the differences in this case could at any time appropriately be referred to The Hague, that time has not arrived. The questions are not ripe for such reference; diplomatic effort would first have to be exhausted and the exact point at issue ascertained and specified. To invoke at this time an arbitral solution would be to request the permanent court at The Hague to undertake duties which necessarily appertain exclusively to the foreign offices of Tokio and Peking.

"But these differences are not of a nature to admit of arbitral determination, which is limited necessarily to the questions actually at issue. The controversy covers a wide range of interests and calls for a correspondingly wide range of accommodation. The powers immediately concerned, having plenty of authority to pool all issues if necessary, are alone competent to settle the questions in a satisfactory manner, and no solution not satisfactory to all concerned will stand the test of time and the stress of competing interests.

"It is therefore extremely unfortunate, the foreign office statement sets forth in conclusion, that China, failing to take advantage of Japan's complaisant mood, has allowed herself to be persuaded to make the wholly impracticable suggestion of arbitration."

venting Any Attack on For-
mer President.

Naples, March 31.—Several American detectives arrived today to augment the big force of Italian detectives to guard Roosevelt while here. The government is afraid of any unfriendly movement against Roosevelt in Italy will result in severe restrictions on Italian immigration.

CLAIMS CHILDREN HE FINDS HERE AS THOSE HIS WIFE STOLE FROM DENVER

By chance J. Woody, of Denver, Col., claims he found his two children late yesterday afternoon after he has traveled several thousand miles in search of them. He was walking out Trimble street when he saw the boy, 4 years old, playing in the street and recognized him, and then found his daughter, 2 years old, playing in the street near by. The children have been living with negroes, it is said, and they disclaimed any knowledge of their mother.

Woody appeared at the sheriff's

office yesterday afternoon and told a story of his wife leaving him and taking the two children away from Denver. Since then he has been on their trail and has followed them to Chicago, Evansville and Paducah. This morning he reported to Sheriff Ogilvie that he found his children, and went to Tyler in search of his wife, whom he claims has his watch and the clothing of the children.

Some of the officials believe Woody's story, while others do not place credit to it. Woody carries a revolver, as he says his life has been threatened by a man with whom his wife disappeared.

Heath Citizens Happy

Since the county High school has been located at Heath by the county school board, the citizens of the town have been busy, and already have subscribed \$2,000 as a bonus for the location of the school in addition to the site. The citizens are pleased with the selection of their town for the school, and say they will help to make it one of the best county high schools in the state. No decision has been received from the attorney general, to whom the question was submitted as to whether the locating of the school outside of the county seat was legal.

Generally fair tonight and Thursday, not much change in temperature, frost tonight. Highest temperature yesterday, 54; lowest today, 41.

COAL OPERATORS AND MINERS WILL KEEP AGREEMENT

Announcement Made That It
Will be Continued In-
definitely.

Expires by Limitation at Mid-
night Tonight.

GENERAL STRIKE IN CHICAGO

New York, March 31.—The miners' working agreement is continued indefinitely. The committee of operators and miners confirmed this today.

Agreement Expires.

Philadelphia, March 31.—The anthracite coal commission's award, which resulted in six years of peace in the hard coal fields employing 167,000 hands, will expire at midnight.

The operators at the joint conference held in this city several weeks ago offered to renew the agreement for another three years, but the miners in convention at Scranton last week voted to allow the award to lapse.

The collieries in the Schuylkill district, it was announced by the operators will resume work Friday morning, after Thursday's holiday suspension in celebration of the eight-hour work day in the soft coal field, and will work until the close of the week.

This means that there will be no lockout and if there is any suspension it will be by reason of the miners not reporting at the collieries.

No Intimation is given of the condition which the operators will offer the men after the expiration of the present agreement, but judging from the policy of keeping the mines in operation without ceremony of any kind it is inferred that wages and other conditions will remain unchanged.

General Strike Threatened.

Chicago, March 31.—A general strike of 5,600 freight handlers in Chicago is threatened to begin tomorrow unless wholesale grocers accede to demands of organized grocery clerks for shorter hours.

Federation of Women's Clubs Will Consider Attacking Tariff Where it Affects Women and Their Homes

State Delegations Are Confer-
ing on Rules Governing Tar-
iff Discussion—Influence of
Taft is Necessary.

Washington, March 31.—A concerted movement by women against the Payne tariff bill provisions, effecting women and home is predicted by Mrs. Ellen Spencer Mussey, local representative of the Federation of Women's clubs. There is a meeting tomorrow at San Antonio of the executive council of the federation. Mrs. Mussey expects the crusade formally to be started in "favor of the inheritance tax as one means of increasing the revenue, rather than tax defenseless women and children."

Must Put Up Tariff.

Washington, March 31. (Special.)—At a conference this morning a number of Republican representatives decided that unless leaders consent to higher duties on coal, lumber and other products of the south, insurgents will join the Democrats to force down duties on products of New England.

Although most of the house members are tired of the long drawn out general tariff bill debate, Olmstead, chairman of the committee of the whole, had down all the names of members desiring to speak. Unlimited time with privilege to stop is understood. Mann, of Illinois, chairman of the wood pulp investigation committee, gave the house the long promised illustrated lecture today.

Delegations Confer.

Washington, March 31.—State delegations are holding meetings on the tariff question to agree on reports, which are being forwarded to the committee on rules. Illinois voted in favor of the caucus. Michigan and Kansas will hold meetings today. A long session of the ways and means committee was held today.

Taft Must Aid Bill.

Washington, March 31.—Cannon and Payne threw up their hands at a white house conference on tariff and told President Taft that party lines are in such confusion that he alone can pass the Payne bill. The presidential whip must be cracked, they informed Mr. Taft, in order to get the pending tariff measure through. The president told them that at the proper time he would crack the whip.

As the issue stands general debate will continue on the Payne bill for the remainder of the week. At the beginning of next week the whip will be cracked and a five-minute rule will be enforced. By April 10, if any potency remains in the power of the president of the United States, the Payne bill will emerge from the house.

President Taft himself, summoned the congressional leaders into this conference. Senator Aldrich, of Rhode Island, was present, representing the senate. With chaos in the house and open revolt in the senate, as typified by the outbreak of Senator Kilgus, the president saw imminent danger for his entire tariff program. He called up the legislative leaders for a general survey of the field.

Senator Aldrich's Idea.
At the outset Senator Aldrich pertinently observed the first requisite was for the house to pass a tariff bill. Until some definite bill has emerged from the house, and he before the senate, he declared it will be impossible for the senate leaders to map out any intelligent plan of campaign. This forced President Taft to turn to the speaker of the house and means committee. He reminded them that every Republican down to the newest and humblest member of the house is as much bound by the platform of the Republican party to revise the tariff as he is, William H. Taft.

Then he took up the Payne bill and adhering steadfastly to his expressed determination not to enter into any wrangle about specific schedules, assured the conferees that the Payne bill, according to his lights, meets the requirements of the situation. The president agreed that perhaps the bill might be improved in some respects by amendments, but the general features of the measure he approved, and he gave the speaker and Chairman Payne to understand that he believed it was as good a bill as can be secured at this time, and should be passed substantially in its present form.

A general discussion followed, the upshot of which was that, pinned down, the speaker and Payne declared that owing to the conflicting interests on the floor of the house, they have no faith in their ability to pass the Payne bill in anything like its present shape. If the president insisted upon the passage of the bill,

SPONSOR SYSTEM WILL BE TRIED BY THE HIGH SCHOOL

Purpose is to Draw Teachers
and Pupils Into Closer Per-
sonal Relationship.

Each Teacher to Look After
Twenty Pupils.

DATE FOR BASKETBALL GAME

The sponsor system, which has been used with success by a number of college and high schools, has been adopted by the faculty of the High school. The system went into effect today and those interested in school work will watch it closely to detect any favorable results. The purpose of the system is to bring about a closer relation of the teacher, pupil and the home. Each teacher are assigned about 20 pupils, who are selected from various classes, and it will be her duty to consult and advise the pupils, as well as encourage them in their work. Any difference that arise may be settled by the sponsor will be settled; but the principal benefit of the plan is to give the pupils more personal attention.

With all of the students in the study hall under no certain teacher, and having each class with a different teacher, and in many instances with different students, the personal work of the teacher is lost sight of. This has been one objection to the study hall. No teacher feels directly responsible for the general welfare of any certain pupils, and it is difficult to bring about a school spirit.

Superintendent J. A. Carnegie and Prof. W. H. Sugg considered the plan for several weeks before adopting it for a trial. There are nine members of the faculty and on the division each teacher will have about twenty pupils.

May 7 Game.

May 7 will be a merry one for the students of the High school, and if the plans of Prof. W. A. Evans, the athletic director of the High school, materialize, the Cairo fans will be a sorry bunch. The game of basketball between the two high schools has been called off because of the expense and the fact that the basketball season is over. Instead a big athletic event has been planned, as well as the debate at night.

Already the debate between the representatives of the schools has been arranged, and will take place at night. As long as the speakers will be accompanied by a large number of rooters it is planned to have a track meet between the two schools in the morning. In the afternoon the two baseball teams would meet on the diamond, while at night the debate would be pulled off. The High school fans take kindly to the plan, and already the boys have plenty of good material is available, and High school intends to win from Cairo in the athletic events as well as the debate.

Grading Tobacco.

Graders Miller, Glover and Bell will be at the Planters' Protective association salerooms, Second and Jefferson streets, tomorrow grading tobacco. About 1,000 hogheads of tobacco remain to be graded. W. H. Blakemore, of Marion, general manager of the western district, will also be here tomorrow.

Mr. M. V. Powell.

Mr. M. V. Powell, 35 years old, died this morning at 9:30 o'clock at his home in Altam, Marshall county, of consumption. Mr. Powell had been confined to his bed six weeks before his death. He was a well known and highly respected citizen of Marshall county. He is survived by his wife and two children. The funeral will be held tomorrow afternoon at 2 o'clock and the burial will be at Calvert City.

Will Force Bill.

More discussion followed, and out of it came the plan of campaign, which looks to the forcing of the bill through the house by April 10, at the latest. In order that the president may have time in which to work upon the recalcitrant members, it was agreed to allow general debate continue through this week.

OLD PEOPLE!

Need Vinol because it contains the very elements needed to rebuild wasting tissues and replace weakness with strength. It fortifies the system against colds, and thus prevents pneumonia.

This is because Vinol contains iron and all of the medicinal body-building elements of Cod Liver Oil, taken from fresh cods' livers—but no oil. Vinol is not a patent medicine. Everything it contains is named on bottle.

POOR BLOOD

Elderly people feel the cold keenly, because their blood is thin, sluggish and watery. Vinol is the ideal blood tonic and strength maker. It creates a hearty appetite, promotes digestion, purifies and enriches the blood and invigorates the entire body.

76 YEARS OLD

The grand-niece of Alexander Hamilton says:—"I am 76 years old, have a hearty appetite, sleep soundly, and feel active and well. Thanks to Vinol, which is the finest tonic and strengthener ever used. Vinol is a God send to old people."

COUGHS AND COLDS

Elderly people are very susceptible to coughs and colds, which so often develop pneumonia. Don't lose time experimenting with other remedies when we guarantee Vinol to cure. Vinol has carried many an old person through a hard winter without a cold or cough.

80 YEARS OLD

"I was so feeble I had to be wheeled about in an invalid's chair, and took cold at the slightest cause. Vinol built up my strength so I could walk a quarter of a mile. I am delighted."—MRS. M. BLOOM, Lewistown, Pa.

BECKHAM FORCES VERY MUCH ALIVE

Overrule Chairman Prewitt's Call for Meeting.

Contests in Every County and District Will Receive a Hearing There.

MUCH INTEREST ATTACHES

Louisville, Ky., March 21.—Interest in Democratic politics in the state has been suddenly intensified, and the meeting of the state central committee at Lexington next Friday is awaited with the keenest anticipation by those who want to know who is to direct Democratic leadership in the commonwealth.

The friends of former Governor Beckham, who was supposed by his opponents to have passed out as a political factor, are insisting that Beckham is now as much alive as ever, and that the Beckham men control the Democratic state central committee and consequently the Democratic party in Kentucky.

That there is a good deal in their claim is proved by the way in which Henry Prewitt, chairman of the state central committee, was ridden down in the call for the meeting. Prewitt, who has gone to California for a lengthy visit, before his departure issued a call for a meeting which was to be held April 28, after his return. Instead, eight members of the committee got together and issued a call for a meeting to be held April 2, thus exerting their power over the chairman.

Furthermore, instead of calling the meeting for the purpose of considering the contests from Covington and Kenton county alone, the call sets forth that the meeting is to hear and dispose of all contests pending in various counties as the result of the precinct elections of committee men last November, and to consider the establishment of permanent headquarters.

Chairman Prewitt was placed at the head of the committee by the anti-Beckham men at the Lexington convention. He is considered strictly an anti-Beckham man, and is the ally of Col. John Whitten, the Louisville leader, who is also an anti-Beckham man.

In the Kenton county contests, however, Joe Pugh, the ally of Prewitt and Colonel Whitten, has thrown up the sponge and announced his withdrawal from the fight, thus

For women and children it is the most delightful dressing and should be in every home. Gilbert's drug store sells it for 50 cents a large bottle.

Another sign of the domination of the Beckham men.

In Louisville, Colonel Whitten controls four of the eight members of the local committee, but there are some contests, and if the state central committee should cast his men there would be a new deal in Louisville.

Beckham is looked upon as the leader of the temperance forces in Kentucky, while the anti-Beckham men represent the liquor interests.

It can easily be seen that there are all sorts of possibilities in the Democratic situation in Kentucky, and the meeting at Lexington next Friday should prove the most interesting that has been held in years.

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Louisville, S. C. "It's called Electric Bitters, and comes in 50 cent bottles. ELEVATOR CAGE

FROPS FOUR FLOORS IN FRATERNITY BUILDING.

Five Hundred Dollars Damage Done to Lift in Few Minutes Last Night.

Three negro elevator boys had a narrow escape from death last night when the elevator in the Fraternity building fell from the fourth floor to the bottom of the shaft. Out of the wreckage at the first floor Maynard Stovall and James Adams leaped and practically were unhurt, while Roy Davis, made a flying leap out of the door as the elevator dropped by the second floor. The elevator is damaged, but it can be repaired.

It was at 7:40 o'clock when the elevator boys change watches, and Davis was in charge of the cage. He turned on the power and the right side of the encasement caught some exposed weights. Part of the elevator was carried to the roof, while the main part of the cage was twisted and it dropped to the first floor. Somehow as the cage dropped by the second floor Davis threw open the door, and jumped into the clear, while the two other negroes remained as passengers.

The damage to the elevator will amount to about \$500. An elevator expert arrived this morning from Louisville, and he has begun work of repairing the cage. When the cage fell the entire building was shaken and many of the occupants thought an earthquake was on.

Where the Corn Goes. People often wonder, particularly those who have traveled for hundreds of miles through the corn belt, what becomes of corn which is grown every year. In the year 1908, when the total crop was 2,666,000,000 bushels, 241,000,000 bushels were consumed in flour and grist mill products, 8,000,000 bushels for malt liquors, 17,000,000 bushels in the production of distilled liquors, 40,000,000 bushels for glucose, 190,000,000 bushels for export, and 13,000,000 bushels for seed, making a total of 518,000,000 bushels, or 19.3 per cent. of the entire crop. The remaining 80.7 per cent, or 2,118,000,000 bushels, seems to have been used almost entirely for feeding.—Corn Reporter.

Newfoundland would be nothing without that great submarine plateau known as the "banks," on which all the fishing is done. At a small station within the edges of the great bank that the cod loves so well the sea is quite smooth. It is usual for vessels fishing on the bank to inquire from those that have arrived from the open sea as to what sort of weather is abroad.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Erie, Pa.—"I suffered for five years from female troubles, and at last was almost helpless. I tried three doctors but they did me no good. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and it has made me well and strong. I hope all suffering women will just give Lydia E. Pinkham's Vegetable Compound a trial, for it is worth its weight in gold."—Mrs. J. P. Eudlich, R. F. D. 7, Erie, Pa.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

The Work of Theodore Roosevelt.

The American people should be grateful to President Roosevelt because he has served them well. As he leaves the white house he will leave with him the good will of his fellow citizens, their best wishes for his happiness and prosperity and hope that he may live many years, because as long as he lives he will be an active man giving to mankind the best that is in him. His influence for better things in the nation will be long felt. He quickened the national conscience into a keener appreciation of right, and into a stronger hatred against wrong.—Memphis Commercial-Appeal.

James R. Keene and J. B. Haggin recently told in Tucson Arizona seventy-five thoroughbreds from their racing and breeding farms in the United States. The sales were only fairly successful, because American horses were previously unknown there.

It Does the Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve. "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at all druggists.

Revenue Law.

Still Paying War Tax Levied on Tobacco in 1898—Size of Package Cut by Law—Bill Introduced

TO RESTORE ORIGINAL SIZE

Washington, March 31.—What is designated as a "Joker" that cost the consumers of tobacco of this country nearly \$45,000,000 was found in the existing revenue laws of the United States by Representative Dawson, of Iowa, who at once introduced a bill to correct the error.

Under the Dingley tariff law two canes packages of tobacco roll to the consumer at 5 cents each and four ounces at 10 cents. In 1898 a war revenue tax of 6 cents a pound additional was levied on tobacco. At the same time, in order to serve the convenience of the trade authorizations were given for the reduction of the sizes of packages from 2, 3 and four ounces to 1 2/3, 2 1/2 and 3 1/2 ounces, thus enabling the smokers to purchase 5 and 10 cent packages of tobacco at the store.

In due time the war revenue was repealed. Somebody forgot Dawson believes to restore the packages of tobacco to the original sizes, and hence, ever since 1902, the consumer of tobacco has been paying the equivalent of the war revenue tax to the manufacturers of tobacco.

According to figures obtained from the commissioner of internal revenue over thirty-two billion 1-3 ounce packages have been sold during the past six years, and over twelve billion packages of the 3 1/2 ounce size. Dawson figures out that the purchaser of each small package has been mulcted out of one cent and the purchaser of the larger out of two cents, and hence the "Joker" has cost the consumer about \$45,000,000. Dawson's bill proposes to restore the packages to the original sizes.

**Thousands Have Kidney
Trouble and Never Suspect It.**

How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine, beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.
You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Louisville, March 31.—Cattle—Receipts 66, for two days 1,530; the attendance of buyers was light, the market quiet, but little doing, the best butcher cattle were about steady; that is, choice handweights; all other dull and neglected; feeders and stocker trade quiet with but little doing; common, trashy stockers very hard to sell; bulk steady; choice milch cows steady; others slow; no heavy cattle on sale, feeling easy. We quote shipping steers \$4.75 @ 5.75; beef steers \$3.65 @ 5.25; fat heifers \$3 @ 5.25; fat cows \$3 @ 5; cullers \$2 @ 3; canners \$1 @ 2; bulls \$2 @ 4; feeders \$3.25 @ 4; stockers \$2.25 @ 4.50; choice milch cows \$3 @ 4.50; common fat \$1.5 @ 3.5.

Calves—Receipts 103, for two days 236; the market ruled steady; bulk of the best 6 1/2 @ 7 1/4; some fancy higher; medium 4 @ 6 1/2; common 2 1/2 @ 4.

Hogs—Receipts 923, for two days 4,510; the market ruled steady on choice cornfed hogs; 150 lbs. and up \$7.15; 120 to 160 lbs. \$6.50; pigs ranged from \$5.25 for light pigs to 5.75 for heavy pigs; roughs \$3.90 down. No improvement can be noted in the situation on hogs from doubtful sections; they are poor property and hard to sell at uneven discounts.

Sheep and Lambs—Receipts 10, for two days 266; the market was quiet and unchanged; best lambs around 6 1/2; some fancy light lambs higher; culls 3 @ 5; fat sheep 4 1/2 @ 6; no demand for common trashy sheep or thin cull lambs.

Louisville Tobacco.
Louisville, March 31.—The opening sales day of the week brought only 101 bbls. of dark. The market was unsatisfactory, the only grade holding its own being trashes. All told the demand was indifferent and going prices were lower and generally unsatisfactory to sellers. The condition and quality of the tobacco was poor. Only three warehouses had sales.

The United Dark warehouse offered 47 bbls. of new dark, which brought from \$4 to \$9. The market was unsatisfactory and there were 14 rejections.

At the Pickett warehouse 30 bbls. of new dark brought from \$3.50 to \$9.50. The market was unsatisfactory and there were about 15 rejections.

The Main street warehouse sold 35 bbls. of new dark at \$5.85 to \$10. The market was easier and there were 6 rejections.

The following is the report of offerings on the Louisville market, including all warehouses:

**VON BUELOW IN
STRONG SPEECH**

Replies to Attack Before German Reichstag.

Earnestly Warns Socialists Against Disorderly Agitations—Salary Appropriations Adopted.

HE AFFIRMS THE NEW TAXES

Berlin, March 31.—Chancellor Von Buelow during a debate on the salary appropriation in the reichstag replied to the attack made upon him by his opponents.

He denied in the most absolute terms the existence of a camarilla around the emperor, declaring that with such a straightforward, open-minded, far-seeing man as his majesty intriguers could not exercise any influence.

The chancellor earnestly warned the Socialists against any disorderly agitation, saying that if it became necessary, a much stricter law would be introduced for their suppression.

He then affirmed that the new taxes, which were necessary for the carrying on of the empire, must be partly direct and partly indirect; that persons having property must share the burden in the shape of an inheritance tax, while necessities and luxuries also must bear a portion of the impost.

At the conclusion of his speech the house adopted the appropriation.

Rank Foolishness.

"When attacked by a cough or a cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Emory, Ga. "I have used New Discovery seven years and I know it is the best remedy on earth for coughs and colds, croup and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the King of throat and lung remedies. Sold under guarantee at all druggists. 50c and \$1.00. Trial bottle free.

Silence.

Silence is a language understood in every country.

Were silence to be enforced on all of us for a single day the fools would go mad. The wise would talk less thereafter.

Silence, in the shallow man, means that he is out of breath. A man is known by the silence he keeps.

A silent man may not be thinking, but the burden of proof is not on him.

To be silent in company is to invite the suspicion that "you have something on your mind." The reason is obvious.—Brooklyn Life.

Singer Talks

Singer First Cost is the Whole Cost.

Of course you can buy a sewing machine for less money than you would pay for a Singer—all the world knows that. But consider this: When a Singer is bought and paid for, it is paid for—it lasts a lifetime.

A cheap machine is never paid for. Every cent expended for repairs must be added to the original cost—it's an endless system of instalments. These instalments, added to the first cost of the machine, soon exceed the cost of a Singer, and after each successive repair (if you can get another part) the cheap machine grows more and more second-hand—one step nearer the junk heap.

The time lost, the trouble and the worry outweigh many times over the difference in the cost between the "cheap" machine and the Singer.

There are two kinds of machines—good and bad—and the good kind is the Singer.

I at last began using Doan's Kidney Pills, which I procured at Dulcote, Son & Co.'s drug store and after taking the contents of three boxes, I was much improved. UNITED STATES ON THE ALERT

Watching Every Move of Former President Castro.

To Prevent Castro's Friends Sending Arms From This Country—Minister Paul Makes Statement.

THIS CAN PRESERVE PEACE

The Hague, March 21.—Senator Paul, Venezuelan envoy, gave out an interview here in which he explained that Venezuela had not withdrawn her objection to Castro landing in the republic, but had merely notified the French steamship company that the government would not make any difficulties if the company desired to carry Castro into a Venezuelan port.

United States Is Watching.

Washington, March 21.—The United States government is watching very closely every move of former President Castro, of Venezuela, that the United States can make itself a factor in preserving the peace of Venezuela is generally believed here.

England, Netherlands, Germany and France are naturally looked upon as likely to be in sympathy with any proposition the United States may take to prevent a movement in the interests of Castro.

Every effort will be made to prevent any expedition from the United States to furnish Castro's followers with arms and ammunition.

NOTICE.

I urgently request all persons indebted to me to make settlement before the first day of May, 1909, as I will after that date bring suit on every unpaid note and account due me. Now your account is to each of you a small matter, while the whole is to me very important. I shall deal with all alike: if you don't pay you may know that you will be sued, whatever your name or color may be. I hate to do this, but I am forced to it in self-defense. If you have not the money and will borrow it to pay me in full by the first day of March, 1909, I will deduct 10 per cent from your account, thereby paying the interest myself. Is this not as fair as any sane man can ask?

"My dear," said Tom Weston to his wife, "I have a note this morning from Jim Atterbury asking an invitation for his special friend, the Hon. Donald Chesterton, a younger son or something of a British lord. Please send him a bid."

"Donald Chesterton! I never heard Mr. Atterbury speak of having friends among the British aristocracy."

The function referred to was a large dinner and cotillion to be given by Mrs. Weston. Atterbury was Mr. Weston's bosom friend and was privileged to ask of the Westons for what he chose. The invitation was sent, and when the evening came round Atterbury brought his friend to the dinner. Chesterton had mild blue eyes, soft flaxen hair parted in the middle and a cameo cut smooth shaved face. He wore the usual British moustache.

"My friend Chesterton," said Atterbury, introducing him and at the same time slipping him on the back familiarly, "doesn't consider himself a ladies' man. He loves to roan, now hunting in Chicago—has, indeed, been in Africa—and now doing battle with the pirates of the Malay archipelago."

"What's the matter with your tongue, Jim?" asked Weston. "Did you drop in at the club for refreshment on your way over?"

"Nothing the matter, I assure you. I only wish to say that Chesterton being more at home in the open than shut up, even in a due house, Mrs. Weston had better take him under her wing at dinner. He doesn't fly for young ladies."

There was considerable disappointment among the women guests that the Hon. Mr. Chesterton should have been retained by the hostess. But that lady gave out that, like many men of the British nobility, the young man was a sportsman and a man's man rather than a woman's man. He said little and seemed to be keeping his eye on his introducer as though he didn't feel at ease on American ground and among American customs.

"Wake up, Chesterton," said Atterbury from across the table. "We Americans, of course, are Americans, but we're not so dreadfully different from your London smart set."

Chesterton forced a smile, but looked as if he would prefer shooting lions to being ogled by women. When the dinner was over and the guests were forming for the cotillion Atterbury took pity on his protegee.

"Chesterton," he said to Mrs. Weston, "hates the cotillion. You see, when at home he's obliged to do things he doesn't like. He's danced so much at balls in London that he doesn't want any of it in America. I'm going to take him up into the den and let him smoke."

The two men went upstairs. Later Atterbury went down and asked if Chesterton was dancing. Chesterton, he was told, had not come down. Atterbury said Chesterton had left him for a moment some time before and had not returned. The missing man was not to be found. Atterbury seemed worried. He finally told Mrs. Weston that Chesterton, bored as he was by social functions, had probably taken French leave. When the guests were gone Atterbury took Weston aside and said:

"Do you remember our talk some months ago about the effect of dress on people's appearance?"

"Yes."

"And I bet you a hundred dollars that before the winter was over I'd palm off on you a jail bird?"

"Yes."

"Well, I've done it."

"How? When?"

"This fellow Chesterton is no British swell at all. His mug is in the rogues' gallery. I brought him here expecting to keep an eye on him. Somehow or another he managed to give me the slip and—"

"Tom," called Mrs. Weston, "come up here at once. We've been robbed."

The two men looked at each other. Atterbury turned pale. Weston's face changed from interest in the story to interest in what Mrs. Weston was saying, then he ran upstairs.

When he came down he found his friend walking the floor. "You've won your bet, old man, but at considerable cost. All the jewelry that was in a box on my wife's bureau drawer has disappeared. It couldn't be replaced for \$5,000."

There was a constrained pause.

"Well," said Atterbury as soon as he could recover from the shock, "we'll telephone the police. I'll mail you a check tonight for \$5,000. If the stuff is found you can return the amount."

The police were telephoned and soon got on the track of the Hon. Mr. Chesterton, alias Foxy Pete, alias Zeb Nipper and a number of other aliases. He was eventually caught and the jewelry restored. Mr. and Mrs. Weston went to see him in prison garb and for some time would not believe that he was the same man who looked so aristocratic in Atterbury's cast of evening dress.

Weston offered to pay the bet, but Atterbury declined to receive it, and when his friend renewed the offer Atterbury told him if he ever spoke of it again he would cut his acquaintance. Mrs. Weston had many inquiries concerning the handsome Britisher, to all of which she replied that at last accounts he was fighting elephants in India. Weston avers that the gentleman is just now having an engagement with bars.

GENTRY SHOWS

WILL PLEASE LARGE AUDIENCES IN PADUCAH.

Performance of Ponies, Monkeys, Dogs, Elephants and Men.

With an attendance that will fill the tent both afternoon and evening, the Gentry Bros. Shows will give two performances at Paducah, Saturday.

Capacity with the Gentry Show means about 2,500 in the tent at one time, for even its press agent does not make the claim that it is the proverbial "world's greatest."

Although not the largest show on the road—rather being one of the smallest—it truthfully can be said that it is one of the best for its size, and this statement is based chiefly upon the liberal applause of those witnessing any performance.

The whole affair is clean. The acts are clean, the animals are clean and evidently well fed, the trappings are new and well kept, and the statement is made that each week every pole, cart and fixture about the show is cleaned up and painted.

Although it is advertised as a "kids' show," it can be noticed at any performance that the adults in the audience outnumber the little fellows by more than two to one, and they showed that they have not forgotten how to enjoy a circus. Everybody is satisfied with the performance and everybody laughs, if the antics of a band of monkeys could make him laugh.

The show opens with the 50-pony acts in pyramids, Fred Rush, being the equestrian in charge. This is followed by the Landers Family in a juggling act, and then the show is fairly on. During the numbers comprising the evening's program, dogs, ponies, monkeys, elephants and men and women do "stunts" and go through girations and drills seldom seen in a circus ring to better effect. The degree to which the animals are trained in many instances is remarkable.

One feature of the show, which differs from the ordinary performances on boards, is that every animal seems to take an interest and a pride in what he has to do. There are no laggards, they are all good natured, sleek

Ten Doctors Said He Would Die

"In 1903 we wrote you regarding my husband, who was suffering from heart trouble. He was superannated by the North Georgian Conference. Ten doctors at different times said he would die. You advised Dr. Miles' Heart Remedy and Restorative Nervine; we did as advised, and improvement was apparent from the very first. He recovered and the Conference in 1904 gave him a charge. He never felt better, although he has very heavy work and does a great deal of camp meeting work. I am so glad we took your advice and gave him the medicine, and feel that I ought to let you know of the wonderful good results from its use."

Milner, Ga.

This proves what Dr. Miles' Heart Remedy will do. Get a bottle from your druggist and take it according to directions. It does not matter whether your heart is merely weak, or you have organic trouble, if it does not benefit you take the empty bottle to your druggist and get your money back.

The Patent Lawyer.
As the Patent Department of the United States has become one of the most important under the government, due to the enormous number of inventions, their intricacy and the means and skill to evade former patents, it has given birth to one great department of the legal profession—that of the patent lawyer. Under the American patent system as first established there was no examination made by the government to determine whether an invention was new, and the officers simply inspected the models and determined whether there was enough merit to warrant a patent.

But now the patent instrument is becoming more and more difficult to obtain and the inventor would be practically helpless were it not for the assistance of his patent lawyer, he were to die.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate examinations and offensive repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

THE PUBLIC BENEFITED.

Paducah People Greatly Interested in the Generous Offer of W. B. McPherson.

The people have already demonstrated that they would rather trust a man who is naturally honest, than one who was honest only because he had to be.

W. B. McPherson has a firmly established reputation for square dealing and sterling honesty. When he told the people that Rexall Remedies are the purest, and most dependable remedies that it is possible for modern science to produce, and that he would tell the public exactly what each one of the 300 remedies contained, and that he sold Rexall Remedies on his own personal guarantee that they would give entire satisfaction or the medicine would not cost the user a single cent, he was believed.

Ever since this announcement the store of W. B. McPherson has been crowded by people buying Rexall Remedies; all of which proves that W. B. McPherson has the confidence of the people and that honesty is the best policy.

There is no "cure-all" among the Rexall Remedies—there are 300 different and separate medicines; one for each human ill, and each unquestionably the best of its kind.

Rexall Dyspepsia Tablets are particularly recommended for the positive cure of stomach irritation, indigestion and dyspepsia. They are rich in Bismuth, Subnitrate of Potash and Carminatives, and are prepared by a special process which perfects and enhances the great curative value of these well-known medicinal agents. This remedy sells for 25¢ a package. Everyone suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

The W. B. McPherson Co. are certainly fortunate in securing control of the sale of these remedies, and we urge everyone in need of medicine to investigate and take advantage of their frank and generous offer.

BIG CROWDS ARE COMING TO WITNESS GAMES WITH THE ST. LOUIS CARDINALS

Manager William Deal has been successful in arousing interest outside Paducah in the games between the local team and the St. Louis Cardinals, the National League team, next Saturday and Sunday at league park. The Liberty will bring crowds from up the Ohio Sunday, and Cairo fans are trying to charter the Dick Fowler for the round trip that day. The Cowling will bring a crowd from Metropolis and Brookport. The usual Sunday rates on the railroads will augment the attendance.

The National leaguers have been practicing hard at Little Rock, and, commencing the last of this week, will play local teams on their way up to Chicago until the very opening of the season to keep in practice. The Cardinals this year are in the

best hands they have ever been. Concerning Manager Brosnan's out-Courier-Journal said Sunday:

"When Manager John T. McGraw, of the Giants, turned over Roger Brosnan to St. Louis for Johnny Murray, 'Bugs' Raymond and 'Admiral' Schiel, he let the Cardinals get the best base receiver in the National League. At least, the Toledo sleuth strolled to first base over the four-ball and hit-by-pitcher line last season oftener than any other player in the organization. The new manager of the Red Caps received a total of 91 gifts from the fingers in 1933, drawing 84 complimentary and being hit in various parts of his anatomy on seven occasions. Fred Tenney, his team mate, trudged just as often as old Roger, but was only vaccinated five times."

Change Made in Football Rules.

New York, March 31.—An important change in the football rules was made by the inter-collegiate football rules committee, which completed its session at the Murray Hill hotel, in the reduction of points for a goal from the field from four to three. The object of this change, it was said, was to prevent two goals from the field counting more than a hard won touchdown and goal.

Commenting on this change, members of the committee said that it would reduce the importance on teams of star field goal kickers and make it harder for a mediocre team with a good kicker to beat out a better all around team without a star kicker.

Another change of importance was one designed to prevent confusion in inflicting penalties, when two penalties had been incurred by one team for the same play, by giving the offending team the option of saying which penalty shall be imposed.

A change was made in the rules relating to a touchdown so as to relieve some of the hardships of the team down under its own goal, especially when it has been forced there otherwise than by rushing. The new rule gives the team making the touch back two rushes before the kick, while the old rule only provided the

option of kicking out or keeping the ball for a scrimmage on the line.

A rule was adopted providing that when a centre fells or makes a fake attempt to pass the ball, his team shall be penalized for five yards.

Another penalty relating to the enforcement of penalties makes the rules provide that no penalty can be imposed to carry the ball over the line either for a touchdown or a

WHEEZER OR SNEEZER?

Have You Heard of Hyomel for Catarrh, Asthma and Hay Fever.

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomel.

And you need Hyomel because it will cure you of any catarrhal or inflammatory condition that exists.

It isn't a stomach medicine, or spray, or douche, but a very pleasant, healing, antiseptic balsam, from the eucalyptus forests of Australia. You breathe this balsamic air through a small, hard rubber inhaler, and it reaches every nook, corner and crevice of the membrane and promptly kills the catarrh germs.

Gilbert's drug store will sell you a complete Hyomel (pronounced High-o-mel) outfit for \$1.00 on the money-back plan.

"The use of Hyomel cured Mr. Cutler of catarrh in 1904. He has strongly endorsed the use of Hyomel in many instances, and we are glad to go on record regarding this marvelous catarrh cure, and endorsing its use."—Mrs. A. Cutler, 201 Post Ave., Battle Creek, Mich., Oct. 12, 1908.

safety. It was also provided that hereafter play must immediately stop when the referee blows his whistle for a foul. There was some confusion last year in this respect due to the fact that play was continued after the whistle was blown.

No change of moment in the rules relating to the forward pass was passed, but the rule was clarified in one feature, so as to provide that the ends who are more than one foot behind the scrimmage line shall be out of the play and cannot handle the ball. Heretofore the rule confused

the referees in providing that the ends had to be more than a foot but less than a yard behind the line, and the rule now makes the dead zone more definite. Heretofore the rules have contained no diagram of the positions of the various players, and this will be remedied by its inclusion hereafter.

HERBERT SWIFT INSANE.

Son of Late Millionaire Meat Packer Used Too Much Alcohol.

Chicago, March 31.—Herbert L. Swift, 33 years of age, son of the late Gustavus F. Swift, founder of the packing firm of Swift & company, has been adjudged insane by a commission of physicians and has been an inmate of the Kenilworth sanitarium since March 8, by order of the county court. This became public here through the discovery of the files in the case, which have been hidden. Louis F. Swift, a brother, testified at the hearing that Mr. Swift had threatened to kill himself and members of his family. Excessive use of alcohol was given as the cause.

Mr. Swift is married, but has no children. He has an annuity of \$3,000 from his father's estate. At the end of 11 years he will receive \$1,000,000.
